

# Impulse **HAND SEALERS**

## **FS-Series and PFS-200B**

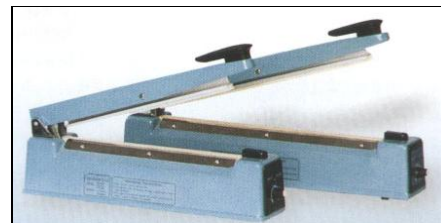

Impulse hand sealers seal poly bags & any other thermoplastics materials quickly and efficiently. There is no long warm up time with these sealers. They are all equipped with plug-in electronic timers. The timer controls the sealing time needed for the varying thickness of the different materials.

Easy to operate- simply set the timer, insert the bag between the sealing bar & the sealing platform, press down the seal bar, and release bar after the timer light goes out. Once the timer is set, it will give a consistently flat seal. It is recommended that the user hold the seal bar down for a few seconds more after that light goes out to ensure enough time for the seal to cool and set.

### **FS-SERIES**

**FS-100**  
4", 2mm, 180w, 5lbs.  
**FS-200**  
8", 2mm, 330w, 7lbs.

**FS-300**  
12", 3mm, 430w, 11lbs.  
**FS-400**  
16", 3mm, 600w, 15lbs.

The **FS-SERIES** sealers are impulse hand sealers that are compatible with the TISH-Series sealers. They are extremely durable and economical. The sealers are light blue in color and are available in 4", 8", 12", & 16". The manufacturer's replacement kit includes 2 elements and 2 Teflon covers.

Depending on the model of the machine, material up to 16" wide & 10 mil total thickness can be sealed. The seal width is a 2mm (FS-100, 200) or a 3mm (FS-300, 400) wide seal.

### **PFS-200B**

**PFS-200B** is an 8" hand sealer with a 10mm wide flat element with embossing coding function or meshed seal. The coding function is located on the silicon rubber. The manufacturer's replacement kit includes 1 element, 2 Teflon covers, and 1 number set for coding.

The machine will seal material up to 8" wide & 10 mil or more in total thickness. The seal width is 10mm (3/8").

**8", 10mm, 1000w, 14lbs.**
