

Dry-Ink Heat IMPRINTER

tabletop model

HP-280

*Printing Sample
(actual size)*

HP-280 is a semiautomatic, tabletop hot stamp imprinter that uses colored imprinting ribbon. It prints clearly on any soft packing material. The resulting imprint dries instantly. On the automatic mode, the printing timing or speed can be set with a control knob. The speed range is 20-70 imprints/minute. On the foot-controlled mode (or manual mode), the imprinting is controlled by using the foot pedal switch. The imprinter is equipped with an automatic eye sensor and also with vertical and horizontal guides. Ribbon up to maximum width of 30mm can be used. Pressure of imprinting can be adjusted easily. It has up to 3 lines of imprinting, and each line can hold 11 letters or numbers.

Imprinter Includes:

- 1 roll of ribbon (30mm x 110yds.)
- 3 number typesets (0-9)
- 1 alphabet set (A-Z)
- 2 pieces each of LOT, EXP, MFG, & BEST BY
- 2 Allen wrenches
- 1 pair of tweezers
- 2 fuses
- 1 heat tube
- 1 "O" ring

Additional alphabet typesets (A-Z), individual letters, number typesets (0-9), individual numbers, and ribbons are available for purchase. Letters and numbers are 4mm in height and 2mm in width. Ribbon colors are available in black, red, blue, white, gold, and gray.
