

ClamShell

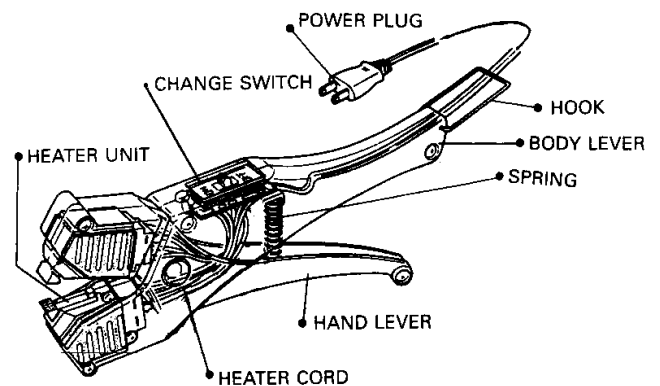

HANDSEALER

- Light-weight
- Easy to Operate
- Two Temperature Settings: High and Low
- Suited to Any Thickness
- Direct Heat Weld, Solid & Firm

This **Clam Shell Hand Sealer** is equipped with two heated 3/8" wide and 10mm long serrated jaws. It has two temperature settings, 350° & 450° F (180° & 210° C). It may be used to weld OPS, PSP, PVC, and EPS food packing cases. It is ideal for sealing poly packing cases such as clam shell and other similar types of containers.

Handles remain cool during operation. The sealer can be used in voltage ranging from 100-240V.

Specifications
